SCOPE OF CONTEST

Contestants will demonstrate photo editing skills using Adobe Photoshop on a Macintosh computer. Using supplied digital images, software and hardware, contestants will demonstrate their digital imaging skills and knowledge by completing a project requiring them to repair, adjust, manipulate and combine digital images. You **MUST** have experience with Photoshop in order to participate in this event.

High school students participating in the challenge, can use their Adobe credentials to log in to use Photoshop on the FCC campus. It is recommended that the high school students verify they have access, away from their high school campus, and know their Adobe username and password, before arriving for the competition.

NUMBER OF COMPETITORS

Individual event, limited to 22 competitors.

Fresno ROP reserves the right to modify enrollment due to limited spaces available.

RULES AND PROCEDURES

1. You **MUST** have experience with **Adobe Photoshop on a Mac** in order to participate in this event.
2. Contestants must arrive by 9:30 am to the designated classroom.
3. Contestants will be seated at stations with their school name.
4. Instructors will inform contestants what they need to do with the 2 photos they will work on. Contestants will color correct, dodge and burn, take out dust spots, move elements from one photo to another, sharpen and make a professional image.
5. By 9:45 am contestants will start the competition.
6. Competition ends at 11:00 am.
7. Instructors will judge the images for a first, second and third place finish.
8. Only supplied hardware, software and images may be used.
